GreyBoard Product Specification

CHUNRONG PAPER INDUSTRY CO. LTD. is established in 2003.

It is a sole-owned Chinese company of foreign capital. Under the co-operation of the professional management, aggressive sales team and the experienced technicians, 30K tons of high quality greyboard is manufactured annually.

With the quality of fine and smooth surface lining, low density, good stiffness and staying flat, CHUNRONG’s greyboard can be well applied on making hard-cover books, gift boxes, puzzles and stationeries, especially the ring binders. Imported light-weight greyboard is laminated by two advance continuous laminating machine. Its stable quality is guaranteed.

CHUNRONG’s greyboard is famous for its consistency and finest quality.

- Density : 0.649 g /cm³
- Thickness : +/- 3% tolerance
- Humidity : 8%, +/- 2% tolerance
- Size : +/-2 % tolerance
- pH value : 7.0 - 7.3
- Tensile : MD, XD >=10Kn/m
- Smoothness : 0.9-1.4mm, average <1800ml / min

thickness (mm)	basic weight (gsm)
1.4	909
1.5	974
1.6	1039
1.9	1234
2.0	1299
2.1	1364
2.4	1558

thickness (mm)	basic weight (gsm)
2.5	1623
2.6	1688
2.9	1883
3.0	1948
3.1	2013
3.3	2143
3.5	2273

Standard size of Hong Kong stock : 31” x 43”, 35” x 47”

Remark:

- 1) Besides the standard sizes, minimum length of special size is 600mm. Lead time is around 7 working days.
- 2) 1/s or 2/s white lining is available.
- 3) Thickness of 3.5mm or above can be special ordered.
